

HAS AIDED THE PARK

A. G. Prince Donated Some Beautiful Cannas to Park.

The park commissioners and incidentally the whole city has just been very fittingly remembered by A. G. Prince who has donated and planted in the park a number of beautiful cannas. Mr. Prince has some plants of especial beauty and his generosity in sharing them with the city merits commendation. Our citizens are becoming more alive to the possibility of making the city park the object of their charity and surely nothing can be done to the benefit of the whole community more effectively than that which makes our park a more pleasant place to visit.
