My dear Sir; In reply to yours just rec'd will say, My step

father was Chauncy Swan, before my mother married him we lived the first house west of the Presbyterian Church.

I remember having heard it talked over, by my mother and some of her friends, That the lot upon which the church was located, (the old church) was deeded to the church with the proviso that it should always be used for church purposes, only, should it be used for any other purpose the title should revert to his heirs; And when the new church was built, they were looking around for a new site some one called the attention of the committy to tis provision and they concluded to use the lot for there new church. how much truth there is in all this I cannot say, the records of Johnson Co, ought to show;

a I would only say that, that was a poor thing to do and upon search you will find your title O.K.

Cordially yours,

A B Walker

*Ps I forgot to mention the grantor was
Chauncy Swan*
